ABDUL RAHMAN

Web Developer

I'm a Frontend Developer with a strong foundation in HTML, CSS, typescript, Nextjs, and Nodejs. I'm passionate about using these skills to develop innovative web applications that are user-friendly. I'm always eager to learn more about web development and marketing. I enjoy the challenge of coding and solving real-world problems. Currently, I'm looking for opportunities to join a team that values innovation and shares my enthusiasm for technology.
